SATURDAY.....APRIL 9, 1892.

The Army Retirement Bill.

The War Department furnished the Military Committee a statement showing the operation of the proposed compulsory retirement legislation upon the army during the next five years. The immediate effect of the bill will fall principally upon staff and engineer corps. Those who will be subject to retirement immediately upon the passage of the Act are as follows: General Sherman, Major General McDowell, General Ingalls, Colonel Ekin, of the Quartermaster's Department; Colonel Kilburn; Substantive Surgeon-General Barnes; Surgeons Cuyler, King, Simmons and Swift; Paymasters Potter, Vedder, Clarke, Brooks and Smith; Colonels Benham, McComb, Tower and Reynolds of the Engineers; Colonels Getty, Hunt and Brannan and Lieutenant-Colonels Howe and Derussy of the Artillery; Military Storekeepers Shollanier, Galbraith, Allsworth, Adams and Whyte; and Chaplains White, Reynolds, Woarst, Porter and Gonzales.

Postmaster Jamison informs us that ever since the first storm of the Winter, all mail matter for Lake county, Oregon, has been sent from Reno, being ordered over this route because it could not go by way of Redding. And the Department proposes to cut off the people of all that northern country after July 1st!

The Austin Reveille gets off the following good one:

Master Jimmy Fair will not marry Miss Emma Wixom of Austin, and John Mackay's daughter will not marry the Duke de Bourbon. Now if the St. Jacob's oil man would only marry Mrs. Lydia Pinkham what a lovely sensation it would create in the medical and journalistic world!

The Eureka Leader very kindly remarks:

The Reno State JOURNAL has entered upon its 17th volume. The JOURNAL is certainly a good paper, always looking after the interests of Washoe county. The Leader extends congratulations on its past success, and good wishes for its future.

General Hooker, the Democratic member from Mississippi, who stoutly opposed the Chinese bill, expresses the belief that many Democrats who favor the bill did so to oblige the Pacific Coast Democrats.

The only Eastern journal that has been really enthusiastic in its advocacy of the Miller bill is the Chicago Tribune. The Tribune is a strong Republican newspaper of the Anti-Stalwart kind.

The Genoa Courier says:

The Reno JOURNAL has entered upon its 17th volume. The JOURNAL is bright and new, and one of the leading papers of the Silver State. A glance at its columns shows that it is appreciated.

The Winnemucca Silver State charged Humboldt county for publishing the Grand Jury report. The Auditor vetoed the bill, and his veto was sustained by one of the Commissioners.

The rate of taxation in Douglas county this year, as fixed by the Commissioners last Monday, is \$3 on every \$100 valuation of taxable property—same as last year.

The California State Bank has been organized at Sacramento, with a capital of \$500,000 and N. D. Rideout as President.

Page says the President has personally assured him that he will sign a bill restricting Chinese immigration for ten years.

We rise to remark that Reno did not hang President Arthur in effigy. Reno is above such contemptible unbusiness.

The Footlight calls him "Ah-Thur."

THE WEEKLY JOURNAL

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

PRESENTMENTS.

An Investigation of the Causes of These Dark Forebodings Which Make Powerful Men Weak.

(Golden Rule.)

Much apprehension has been occasioned throughout America from the announcement made by Professor Proctor that the return in nineteen years of the great comet of last Summer will cause the destruction of the earth. But while people are being so strangely exercised over this announcement, an event of far more serious importance, which is taking place to-day, seems to be almost wholly overlooked. The nature of this most vital subject can be best explained by relating the following experiences:

Bishop E. O. Haven, known to the entire land, was unconsciously awakened one night out of a sound sleep, and lay awake until morning. His mind seemed unusually active, and he not only reviewed his past life, which had been an eventful one, but laid extensive plans for the future. He did not feel especially ill, but could not account for the unusual activity of his brain, nor for the restlessness which seemed to possess him. In the morning he had but little appetite, but was apparently well in other respects. In a few days, however, he began to feel restless and morbid, although he tried earnestly to overcome the feeling which had taken possession of him. But try as he would the shadow of some evil seemed to follow him and he was conscious of a gradual sinking and wasting away of all his physical faculties. He had been an earnest and diligent worker, and in his zeal frequently over-taxed his strength, and being absorbed in his duties failed to observe the common symptoms with which he was afflicted, thus permitting the work of destruction to go on unchecked. But the end finally came in a most peremptory manner. Shortly before his death he wrote a letter—the last one he ever edited—in which he speaks as follows: "A belief that death is near affects different minds differently, but probably all who are in a fair condition of physical and mental strength instinctively shrink from it with an indefinable dread and horror. A dying man is no more able of himself to foresee his own destiny or the destiny of those he leaves than he was before he began to die."

The recent sad and sudden death of Hon. Clarkson N. Potter is one of the most serious warnings ever given in the long list of innumerable cases of fatal neglect. It is not sufficient to say that many other brilliant men, including Everett, Sumner, Chase, Wood, Wilson and Carpenter, were swept away by the same fatal trouble. The question is, were these men sufficiently careful of their health, and could they have been saved? The Albany Argus, in speaking of Mr. Potter's sudden illness and death, says:

"One of the physicians who attended Mr. Potter here was interviewed last evening. He stated that Mr. Potter's inability to converse had for some time served to baffie the physicians in their efforts to determine the root of his illness. It seems, however, that Mr. Potter, some two years ago, suffered a slight attack of kidney disease. Unwise dependence upon a robust constitution and naturally perfect health, and neglect of proper clothing, doubtless sowed the seeds of a disease that needed but some such personal neglect as that of Tuesday morning to develop. From the symptoms at first shown, it was thought that his only trouble was nervous prostration; but his long continuance in a semi-unconscious state led to the belief that his illness was seated in a chronic difficulty more mysterious and dangerous."

Up to the latter part of last year Mr. Edward F. Rook, a member of the New York stock-exchange, was doing business in Wall street, New York. He had everything to encourage him, and make life happy, but was the victim of unaccountable uneasiness. His experience as described by one who knew, was as follows: "At unexpected times, and on occasions when he had the greatest reason to feel joyous he was irritable and haunted with strange feelings of discontent. He endeavored to check these feelings and appear pleasant, but it required a great effort to do so; after which he would again relapse into his former morbid mood. This feeling continued for a number of months, when he became conscious of an added sensation of lassitude. He was tired even when resting, and although experiencing no acute pain, had dull, aching sensations in his limbs and various parts of his body. Shortly afterward his head began to ache most frequently and his stomach failed to digest properly. Being told that he was suffering from malaria he consulted an eminent physician, who informed him that his kidneys were slightly affected, and gave him medicine to restore them. But he grew worse instead of better. He then consulted other eminent doctors of another school and was informed that he had a brain difficulty somewhat in the nature of a tumor, but in spite of all efforts to the contrary he continued to grow worse. At this time his condition was terrible. What were at first simple symptoms had developed to terrible troubles. He was flushed and feverish, constantly uneasy, and yet always weary. He had an intense appetite one day and very little the next. His pulse was irregular, his breathing labored, and every moment of existence was a burden. These disastrous symptoms continued, his face and body became discolored, his heart was irregular in its action, and his breath came in short, convulsive gasps. He grew constantly worse, notwithstanding the utmost precautions of his friends and finally died in the greatest agony. After his death an examination as to its actual cause was made, when his brain was found to be in a perfect condition, and the reason of his disease was of an entirely different nature."

The experiences which have been cited above all had a common cause and were each the result of one disease. That disease, which so deceitfully, yet surely removed the people above mentioned was Bright's disease of the kidneys. In the case of Mr. Rook the brain to be in perfect condition, revealed the terrible fact that he was the victim of a slight kidney trouble, which has gone on unchecked, until it resulted

in acute Bright's disease. The leading physicians and scientists of the world are fast learning that more than one-half the deaths which occur are caused by this monstrous scourge. It is one of the most deceitful maladies ever known to the human race. It manifests itself by symptoms so slight and common, as to seem unworthy of attention; and yet these very insignificant symptoms are the first stages of the worst complaint known in the history of the world. Thousands of people have died from troubles that are called heart disease, apoplexy, pneumonia, brain fever, and similar diseases, when it was, in fact, Bright's disease of the kidneys. The ravages of this disease have been greatly increased from the fact that until recent years no way was known to prevent its beginning nor check its increase when it had become once fixed upon the system. Within the past two years, however, we have learned of more than four hundred pronounced cases of Bright's disease, many of them much worse than those above described, and most of whom had been given up by prominent physicians, who have been completely cured. The means used to accomplish this end has been Warner's Safe Kidney and Liver Cure, manufactured in Rochester, N. Y., a remedy that has won its way into the confidence of the public solely upon the remarkable merits it possesses. As a result, it is more widely used and thoroughly praised than any medicine which has ever been before the American public. Indeed there is not a drug store in the entire land where it cannot be found.

Although Bright's disease is so common in cities, it is still more prevalent in the country. When eminent physicians in the largest cities are not able to recognize Bright's disease, it is only natural that in the country where there are few physicians of any kind, and those few so unacquainted with the disease as to call it by some other name, it should rage terribly and yet unknown to the ones who are suffering with it. Thousands of people can look back and recall the death of friends from what was supposed to be some common complaint, when it was really Bright's disease, and no one knew it. The terrible pleuro-pneumonia, which has been so dreaded, is usually the result of uremic or kidney poison. Lung fever can be traced to a similar source. Most cases of paralysis arise from the same difficulty, as well as innumerable fevers, lung, throat, head and bowel troubles. A vast number of ladies have suffered and died from complaints common to their sex called, perhaps, general debility, when, could the real cause have been known, it would have been found to be Bright's disease, masquerading under another name. In marked contrast to the sad cases which have been above described are the experiences of many prominent people who were as low as any of the persons mentioned, but who were remarkably restored to former health and vigor by this same remedy. Among this number are the following prominent names: Col. John C. Whitner, Atlanta Ga.; B. F. Larrabee, Boston, Mass.; Gen. C. A. Heckman, Philadelphia, N. J.; Rev. D. D. Buck, D. D., Geneva, N. Y.; Dr. F. A. McManus, Baltimore, Md.; Edwin Fay, Davenport, Iowa; Rev. A. C. Kendrick, L. L. D., Rochester, N. Y.; J. S. Matthews, Portland, Mich.; C. W. Eastwood, N. Y.; Dr. A. A. Ramsay, Albion, Iowa; Chancellor, C. N. Stius, D. D., Syracuse, N. Y.; Dr. S. P. Jones, Marietta, Wis.; T. St. Ingraham, Cleveland, O.; Henry T. Champey, Boston, Mass.; Elder James S. Prescott, North Union, O., who is a prominent member of the Shaker community and many others.

To all candid minds the force of the above facts must come with special power. They show the importance of promptness and attention to the first symptoms of disordered health before disease becomes fixed and hope departs. They show how this can successfully be done, and that the dangers which await neglect can only with difficulty be removed.

They certify that they have in their possession "a letter from W. W. Bishop, who acknowledges having made the foregoing resolution and joins as in this appeal." Mr. Requa did not signify what his action would be when Mr. Parkinson, of the Tribune, presented him the two letters.

TABLEAU.

The Closing Concert.

A large and enthusiastic audience filled the Baptist Church last evening. The concert, which was given as a finale to the musical convention which has been in progress for several days past, was one of the finest ever given in Reno. The singers were all in good voice and spirits, and the auditory seemed to appreciate every selection. In the anthem "O That I Had Wings," the solo was rendered by Miss Flora Finlayson. Miss Josie Barnes sang the soprano solo "Hearest Thou." The quartette "Twins on a Bank of Daisies Sweet," sung by Miss Coolidge, Mrs. Greeley, Messrs. Hibbard and Fowler, was a very enjoyable selection. In fact it was too "sweet, sweet, sweet." Mrs. A. L. Layton, of Virginia City, gave that gem from Blumenthal, "My Queen;" piano accompaniment by Mrs. Hammond, of Carson. This selection was so exquisitely rendered that a second was demanded. The lady responded in the lines "Good Bye Sweet heart." The quartette "Sweet and Low," sung by Mrs. Taylor, Miss May Finlayson, Messrs. Perkins and Sunda, was given without piano accompaniment. The melody was low and sweet. P. of Perkins gave a baritone solo entitled "Lost Dreams." In response to the hearty encore he sang a few verses of "John Anderson My Jo." During the last singing (which was without the instrument) the house was still as by magic, so perfect was the sympathy called out by the old familiar "tune." The obligato solo in "Ave Maria" was sung by Miss Flora Finlayson. This young lady's ability is too well known to require comment. Sufficient to say that her voice in this prayer to the virgin maid was at its sweetest and best. The song of "The Three Chafers," by eight gentlemen, caused a hearty laugh and great applause. The male quartette, "Corn Bread," though not as well rendered as the one just spoken of, made many a smiling face. The duet, "When Ye Gang Awa, Jamie," by Mrs. Layton and Prof. Perkins, was really the gem of the evening. The music, expression and acting in this little love scene was all perfect. Dickie Jones' solo "My Angel Mother's Grave," received a hearty encore, in response to which the old favorite "Bonnie Jean" was given. The glee and operatic encores, sung by all of the convention, were absolutely grand, the only drawback being the size of the building. Many of the stirring pieces given would have filled a far larger room. The concert closed with the singing of the "Inflammatus" the solo portions being sung by Mrs. Blanche Taylor. Too much praise cannot be given this sweet singer for her fine rendition of this most difficult part, which included many high trills and runs. The lady's voice rose clear and strong both times when the notes demanded upper C. The accompaniment to this chorus is one that requires the finest execution. As played by Mrs. Layton it was the work of a real artist. During the evening resolutions were read, congratulatory to Prof. Perkins and the other leaders of the convention. These were endorsed by everyone present.

This is the season for rows. Muggy weather always makes men bilious and bumptious.

Three packs cigarettes for 25 cents at E. Meyer's.
